MAINTENANCE

Use a soft, lint-free cloth or microfiber cloth to gently wipe the surface of the mirror. If necessary, lightly dampen the cloth with water or a mild glass cleaner specifically designed for mirrors. Never use abrasive materials like rough sponges, scrub brushes, or abrasive powders on the mirror. They can scratch or damage the mirror's surface and coating.

OPTICAL SYSTEM

LED frame design provides exceptional light distribution. Illumination is spread around the surface emitting soft, even light.

CONSTRUCTION

Constructed with eco-friendly glass, this mirror features a thickness of 0.2 inches. The use of environmentally conscious glass ensures a sustainable and responsible choice, while maintaining the desired level of durability and quality. The aluminum frame is meticulously finished to complement the mirror's design, providing a sleek and modern look. It also offers resistance against corrosion and tarnishing, ensuring long-term durability. By combining the superior quality glass, super slim aluminum frame, and innovative anti-fog technology, this LED mirror offers a reliable and visually appealing solution for various applications such as bathrooms, dressing rooms, and spas.

MOUNTING

Easy to install. Equipped with hanging holes making installation a breeze. The hangers ensure secure and hassle-free mounting on your desired room.

Whether it's your bathroom, bedroom, or dressing room, these mirrors offer a modern touch and practicality with their built-in LED lighting. One convenient feature is the presence of hanging holes for installation, making it easier to mount the mirror securely on the wall.

The hanging hole design allows for versatile mounting options, ensuring seamless integration into any space.

DRIVER ELECTRICAL INFORMATION
