

SAFETY INSTRUCTIONS

1. Do not use outdoors. 2. Equipment should be mounted securely in locations and at heights where it will not be readily subjected to tampering by unauthorized personnel. 3. Do not mount near gas or electric heaters. 4. Cap unused wires with enclosed wire nuts or other approved method. 5. Do not use this equipment for anything other than its intended use. 6. The use of accessory equipment not recommended by the manufacturer will void product listing and warranty and may cause an unsafe condition. 7. Use caution when servicing batteries. 8. Any service on this equipment should be performed by qualified personnel only. 9. Make sure wire terminations are secure and leads are properly tucked in appropriate wire channels. **CONSULT A QUALIFIED ELECTRICIAN BEFORE INSTALLING**

Caution:

Disconnect AC power before servicing and installation. All electrical connections must be in accordance with NEC/CEC or your local code.

Installation Instructions

1. Identify the mounting bracket on the body of the SC6-LED. Remove it from the body by removing the two screws on the side of the SC6.

2. After removing the mounting bracket from the fixture attach the mounting bracket to the junction box.

3. Make the electrical connections, ensure that all connections are in accordance with your local electrical codes. Give the connections a light tug test to ensure connections are secure

4. Once the electrical connections have been made. Attach the housing to the mounting bracket via the two screws that were removed in step 1.
