FEATURES

- This track is stretched with turnbuckles between two endpoints up to 60' apart.
- Uplight tape provides indirect lighting
- Diminutive linear, spot, and pendant track heads
- A balance of flexibility and aesthetics in fine detail
- Delicate tape with concealed uplight and track conductors on the outside that are engaged when the track heads are clicked into place
- The indirect illumination provides an ambient glow
- Family of heads provide the flexibility to illuminate any target to provide visual focus, highlights or pleasing pendants of light
