

Tubes

Tubular linear system with connectors for geometric configurations.

FEATURES

- Nominal 2' and 4' sections in 5 or 10 Watts producing 500 and 800 lumens in 4 CCT's from 2700-5000K
- Suspended, wall, and pendant mounting options available
- Connectors for cube, square, octagon, L, and Y connections
- Tubes is a suspended or surface mounted tubular system comprised of 2' or 4' luminous modules and multiple connectors
- Allows creation of lighted geometries including cubes, octagons, squares, beams, Y's, and lines to make a sleek and slender architectural statement
