

ELX-505

LED Die-Cast Exit Sign With 2 Circuits

Architectural

Catalog Number:

Project Name:

Type:

Note:

MAXILUME
ARCHITECTURAL LIGHTING

FEATURES

This fixture is ideal for applications that require energy efficiency and an attractive die-cast aluminum signage. The long-lasting LEDs in this product consume less than 3 watts of energy and are rated for a life of up to 25 years without a drop in illumination. It takes advantage of a self-generated source of power available on site in emergencies.

BODY

- Molded from solid die-cast aluminum housing that makes it corrosion-proof and UV-stabilized to resist discoloration.
- The standard finish is brushed aluminum face with matte black housing.

FACE

- Knockout directional chevrons
- One face is supplied; extra ones are optional
- Letters are 6" and emit color in all directions

MOUNTING

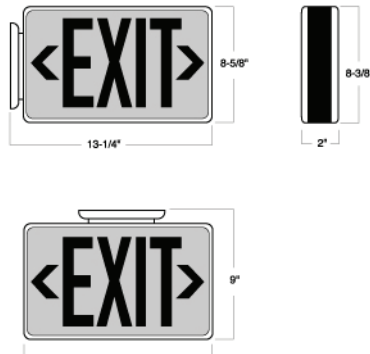

- Unique "snap-together" universal mounting design permits top, back and side mounting. Necessary hardware and canopy are provided electrical
- The chevron directional indicator knockouts and mounting hardware are totally hidden from view.

ELECTRICAL

- 120V or 277V input
- Consumes only 2 watts of power
- LED light source
- Protected against short circuits and power surges
- Second circuit allows the use of alternate power sources in emergencies

LISTED

- UL 924, NFPA, NEC, State & Municipal
- Damp location approved
