DYNAMIC PLATFORM

SMART WHITE - Tunable White with Smart White technology allows the tuning of luminaires to mimic the natural color patterns throughout the day, enhancing interior office spaces, hospitality, and architectural elements. Tuning of intensity and color in classrooms enables a diversification in student activities, while the use of tunable white technology in healthcare stimulates circadian rhythm, accelerating the healing process. Complementing colors and textures in retail merchandising also has an impact on sales, utilizing the technology to adjust colors throughout the season. A CRI of 90+ is standard, and available on all three platforms. Elite Platform (50K-27K).

SMART WHITE High Performance platform with a tuning range of 5000K to

Control via DIM10 (0-10V), ELITE-CONNECT 0-10V, LUTRON, DMX512-RDM,

All LED luminaires are rated and tested to LM-79 and LM-80 standards by an!

CP-City of Chicago Environmental Air (CCEA) marking for plenum applications.

Control via DIM10, ELITE-CONNECT 0 10V, DMX512, DMX-RDM, BLE, DALI Junction box and Driver can be accessed from below the ceiling and above

the ceiling. Junction Box is Listed for through branch circuit wiring.

Five-year warranty for parts and components. (Labor not included)

c-UL-us - Listed for Wet Location if used with HH6-6501 Trim.

**DIMMING & DRIVER INFORMATION** 

c-UL-us - Listed for Feed Through Wiring.

2700K (TWH-50K-27K).

LISTINGS

#### **FEATURES**

A highly sustainable and ultra-efficient architectural LED downlight that provides even, glare-free illumination. Available in a range of finishes, distributions, and lumen packages, it is ideally suited for use in corporate office space, hospitality, healthcare, commercial, academic, churches and retail.

# **OPTICS AND REFLECTOR**

The reflector has a  $45^{\circ}$  visual cutoff, and is shipped standard with a Solite lens in a smooth frosted finish. Spun from 0.05" thick aluminum, with a 1-step anodized finish, and available in different colors or custom RAL finishes. Reflector flange options include self-flanged and white painted flange. Various distribution options are available, and all optics are field changeable.

## THERMAL MANAGEMENT SYSTEM

Passive cooling Diecast Aluminum Heat Sink, LED light engine and driver are replaceable, upgradeable, and can be accessed from below the ceiling. The consistency in the quality of light is delivered with precision performance by the use of a unique locking mechanism that aligns the reflector with the light engine.

## **MOUNTING FRAME & BRACKET**

The downlight mounting frame is a fabricated assembly constructed of 16-gauge steel, with C-channel mounting brackets, included. The versatility of the mounting bracket allows for an adjustability of up to 28" horizontally, and 2-3/4" vertically, locking into place. With the added die-formed construction of the mounting frame, it provides maximum heat dissipation and rust protection.

# **DRIVER ELECTRICAL INFORMATION**

The LED driver is rated for 50 to 60Hz at 120V/277V input, produces less than 20%THD, has a power factor between 90% and 100%, and is thermally protected for additional safety. Junction box and Driver can be accessed from below the ceiling and above the ceiling. Junction Box is Listed for through branch circuit wiring.

# **CONTROL OPTIONS**

With the integration of controls, Elite Lighting now offers its products with controls-ready performance that increases energy efficiency, smarter space planning, and the enhancement of safety and productivity in the workplace. By utilizing these controls, Elite Lighting luminaires enable your customer's facility to run smarter, with the use of an easily controlled system through any platform.

| CONTROL PRO   | DTOCOLS                             |                 | SMARTWHITE | LEDENGIN |
|---|-------------------------------------|-----------------|------------|----------|
| □ ELITE-CONNECT (EC-WC-TWH-HW-MVOLT) - Hard-<br>wired, 0-10V, 120/277V wall mounted controller for<br>CCT Tuning and Intensity Dimming through Simple<br>Touch screen pad, provided by Elite Lighting.<br>Programmable for up to 3-scenes, with a dimming<br>range down to 1%. Applicable for office spaces,<br>hospitality, educational, healthcare, and retail<br>merchandising.  | Tunning<br>6500                     | Dimming<br>     | *          | <b>~</b> |
| <ul> <li>DIM10 (0-10V 1% Dimming Standard) In order to<br/>Control the Color Tuning and dimming option with<br/>0-10V driver you must dedicate two control inputs,<br/>one for the Dimming Control and another for CCT<br/>Tuning. Can be dimmed and tuned with 2 wall box<br/>dimmers and compatible with most control systems<br/>and/or daylight harvesting systems.</li> <li>DIM10-LUTRON Compatible with Lutron GRAFIK<br/>Eye QS or GRAFIK Eye 3000 by using two GRX-TVI<br/>Lutron 0-10V Dimming interfaces; one to tune and<br/>another to control dimming. Also compatible with<br/>Lutron VIVE system by using two FCJS-010 PowPak<br/>or FCJS-ECO EcoSystem PowPak modules per<br/>fixture; one to tune and one to control dimming.</li> </ul> | Tunning                             | Dimming<br>     | *          | *        |
| DMX (Available on Elite, LED Engin) - Compatible with<br>two options: DMX-512: Standard DMX Controller and D<br>Device Management.  |                                     |                 | ~          | •        |
| □ LUTEC0 Compatible with Lutron EcoSystem. Compa<br>Energi Saver node EcoSystem, or Lutron Quantum syst   |                                     | System, Lutron  | ~          | N/A      |
| DALI Compatible with Digital Addressable Lighting I   | nterface, available with two option | s: DT6 and DT8. | ~          | •        |
