

SUGGESTED USE

For areas where smooth and wide light distribution is needed. Ideal for building facades, security, recreation facilities, parking lots, signs, and displays.

CONSTRUCTION

Die-cast aluminum corrosion-proof housing. The one-piece silicone gasket effectively limits outside contaminants by sealing off the optical chamber.

FINISH - Dark bronze corrosion-resistant polyester powder finish is standard.

LENS - Clear, heat- and impact-resistant tempered glass lens.

LAMP/WATTAGE - 90W incandescent or 20W LED.

INSTALLATION - Fixtures offer an adjustable knuckle with 1/2" NPT threads for easy mounting to boxes or adapters. Bottom feed wiring.
