

#### FEATURES

Our Rondo series offers a variety of acoustic ceiling tile designs, sized to fit any T-bar system. Mix and match variations to add depth and texture to your ceiling while lowering the reverberation rate of your space. The sound absorbing material consists of 9mm thick PET felt, with 50% post-consumer recycled content: a strong, durable and versatile product that is available in multiple color variations.

**FLAT - 0"**

**With Height - 1" +**

### CONSTRUCTION

Acoustic material (PET) carefully bound together by hot adhesive.

### ACOUSTIC MATERIAL

Acoustic material is made from 100% polyethylene terephthalate (PET), with 50% post-consumer recycled material. PET is a moisture resistant green product with no added chemicals, binders, adhesives or dyes.

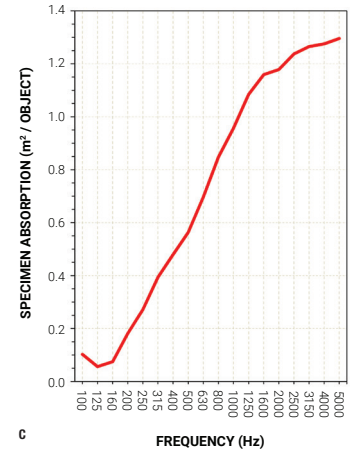

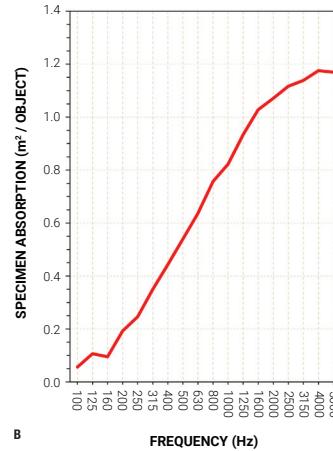

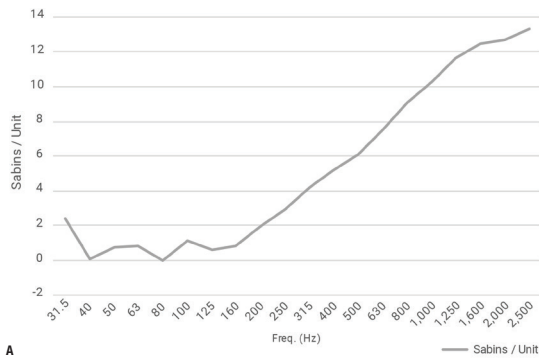

### SOUND ABSORPTION RESULTS (from left to right)

**A** - acoustic performance

Felt Fixtures, alternating with / without light fixtures (8 units total)

**B** - spaced 12" on center

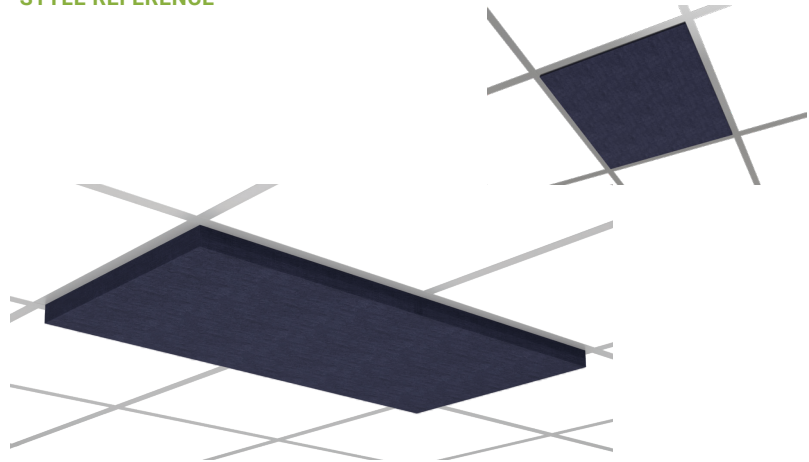

**C** - spaced 18" on center
