

“Shade” are acoustic pendant or suspended fixtures that are fitted with an LED light source. These aesthetically pleasing lampshades allow you to adjust the reverberation rate and brightness of your space. Hang them around open-concept areas to minimize distractions, increase focus, and bring a peace for everyone.

“Stitch” adds a cozy touch to your space with a graceful stitch detail. Made from a fuzzier and softer felt material than our other products, they are still available in a variety of colors.

Example: SHADE-SOFT-STITCH-SQ-4500L-DIM10-MVOLT-35K-90-BK-BK-BK-BK-F-GRN

SOFTSENSE FELT MATERIAL COLOR CHART*

ASTM E84-16 Fire Rated

DIMENSIONS

ACOUSTIC MATERIAL

Made from 100% polyethylene terephthalate (PET), with 50% post-consumer recycled material. PET is a moisture resistant green product with no added chemicals, binders, adhesives or dyes. Although it uses the same ingredients as our acoustic panels, the felt for this product is much softer and more bendable. Felt material thickness is 6 mm / 0.24".

WELL FOR SOUND

This luminaire is recommended for use as an acoustical absorption surface to limit reverberation times (RT) in a given space. This luminaire contributes to noise reduction and vibration dampening to promote focus and concentration. Reverberation needs to be calculated in each space based on the materials used.

PRODUCT SPECIFICS

Top: 20.75" x 20.75", bottom: 35.25" x 35.25", height: 22"

MAINTENANCE / CARE

Acoustic material can be cleaned with a clean, soft, lint-free cloth or a vacuum.

WARRANTY

Limited 5-year Warranty. (Labor not included.) Please consult factory.
