FUNCTION OPTIONS

OPTIONAL FUNCTION

MAINTENANCE

Use a soft, lint-free cloth or microfiber cloth to gently wipe the surface of the mirror. If necessary, lightly dampen the cloth with water or a mild glass cleaner specifically designed for mirrors. Never use abrasive materials like rough sponges, scrub brushes, or abrasive powders on the mirror. They can scratch or damage the mirror's surface and coating.

OPTICAL SYSTEM

LED frame design provides exceptional light distribution. Illumination is spread around the surface emitting soft, even light.

CONSTRUCTION

Crystal-clear reflection with a combination of blend of glass, aluminum, and PC (polycarbonate). To ensure both strength and versatility, the mirror incorporates PC (polycarbonate) into its construction. PC is known for its impact resistance, making the mirror more resilient to accidental bumps or drops. This material also contributes to the lightweight nature of the mirror, allowing for easy installation and handling.

MOUNTING

Easy to install. Equipped with hanging straps, making installation a breeze. The hangers ensure secure and hassle-free mounting on your desired room.

Whether it's your bathroom, bedroom, or dressing room, these mirrors offer a modern touch and practicality with their built-in LED lighting. One convenient feature is the presence of hanging straps for installation, making it easier to mount the mirror securely on the wall.

OPTIONS

Optional ring in Black / Golden or Chrome color.

DRIVER ELECTRICAL INFORMATION

Powered by high-quality constant-current power LED drivers which are rated for 50 to 60Hz at 100-120V/220-240V.

DIMMING & DRIVER INFORMATION

DIMTR - Triac and electronic low voltage (DIMTR-120), available in 120V.

WARRANTY

Five-year (limited) warranty for parts and components. (Labor not included)
